

W.W.Williams Logistics communicates between the supplier and the customer providing 3PL (third party logistics) offering a level of expertise and efficiency you can count on:

- Reduce overhead parts cost
- Improve availability for production
- Improves efficiencies by maximizing turns and minimizing production down time
- Complete management of inventory and delivery of parts via a 'just-in-time' process that utilizes visual management of Kanban System and Kitting

## Logistics Services

### Line-Side Presentation of Parts

- Maximize line-side efficiencies by kitting

### Receiving and Shipping parts management

- Provide inspection of incoming shipments
- Maintain receiving and shipping paperwork and process into monthly report

### Technical Assistance

- Provide technical services for products

### Inventory Cycle Counts

- Daily count of physical inventory
- Compare count to MRP inventory on hand
- Provide monthly MRP reports to customer

## Logistics Results

- Onsite Technical services at MCLB performing IROAN on the HEMTT saved 40% on labor
- Increased variety of products serviced—CAT, CUMMINS, NAVISTAR etc.

### Customer Pay

- 60+ WWW people – RRAD & LEAD – HHMWV recap
- Reduced vehicle cost – \$74,000 down to \$52,000 (model dependent)
- Improved output of “complete” vehicles no “G” coded vehicles
- Allows depot to build vehicles vs. managing inventory
- 100% on time line side delivery
- “0” stock-outs
- \$820,000 reduction in supply chain manpower expenses over 3 months

### Warehousing / Logistics

Daily cycle counts – RRAD

- 99.8% accuracy on count
- 100% accuracy on location

Daily cycle counts – LEAD

- 99.4% accuracy on count
- 98.9% accuracy on location

### Kitting

- Powerpacks—LAV overhaul kits—reman components saving 30 units
- Powerpacks complete assembly—saving 50 hours per unit
- Air conditioning parts kits—LVS AC Systems—saving 20 hours per unit

## Utilize The Following Metrics

- Inventory accuracy
- Track number of depot and warehouse deliveries
- Hot Shots
- Stock-Outs
- Production Completed
- Safety-Accidents
- Attendance

Depot Partnering

- Ensure zero stock-outs occur by attrition rate
- Identify 100% replacement parts
- Verify and maintain accurate lead times
- Establish min/max stocking levels
- Monitor reports weekly
- Create and analyze Pareto chart
